WEBINAR**

PHARMACEUTICAL PRINCIPLES AT THE END OF LIFE

10th November 2022

Webinar: 09:00-14.45

£110

Facilitators: Fiona Dorrington, *Principal Pharmacist* and Melinda Presland, *Consultant Pharmacist*.

Due to an aging population living with co-morbidities, pharmacists require confidence in their ability to offer end of life care which is of a high quality. Whatever setting or practice, the provision of pharmaceutical care to patients who are approaching end of life and their families or carers will be needed.

This day will be of interest to registered pharmacists working in all areas including Non-Medical Prescribers and Allied Health Professionals.
