Reflective practice online workshop – pharmacy technicians only

This workshop provides the opportunity for you to work with other pharmacy technicians to develop your understanding of how reflection and reflective practice can help you to offer better care to your patients. You will also have the chance to learn more about a range of reflective models and use peer support to enable your own critical reflection and development

Workshop duration: 2 hours.

Suitable for pharmacy technicians in any area of practice.

Click here to book your place.

Academic writing and reflective practice

This workshop is open to all pharmacy professionals who wish to improve their ability to demonstrate competence in the skills required for learning at Higher Education Institutes (HEIs) level 7 (Master's degree). It is an optional part of the preparing to train as an independent prescriber programme. The aim of this programme is to support you to gain more confidence in academic writing and reflection in preparation for your HEI course such as independent prescribing or another Master's level course.

Workshop duration: 2 hours.

Suitable for Pharmacists, trainee pharmacists and pharmacy technicians.
