

# Menopause – prescribing perspectives

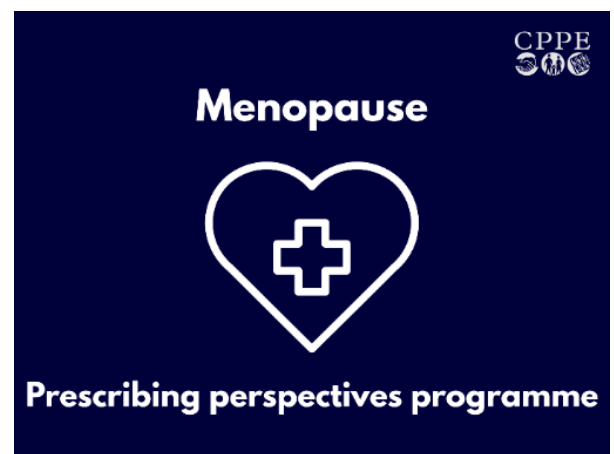

Workshops in Reading, Bracknell and Maidenhead this May, June and July 2026

**Are you struggling with confidence in conducting and documenting consultations around menopause symptoms and medicines supply?**

If so, this workshop is for you.

Whether you are already prescribing, working under PGDs, or planning to develop menopause services, this programme will help you think critically about service delivery, governance, and professional boundaries.

This workshop is **free** and designed to support the development of both pharmacists and pharmacy technicians.
